

This is how the MSFH Program works. In a nutshell

1. Florida homeowner applies for a FREE wind mitigation inspection at www.MySafeFLHome.com
2. Homeowner application is approved, and Inspection company reaches out to schedule inspection.
3. Inspection company provides homeowner with a detailed report identifying their home's strengths and weaknesses against storm wind, and identifies areas for retrofit upgrades.
4. Homeowner decides their next steps, if any.
5. Qualified homeowners apply for a MSFH Grant from the Program to help reduce the cost of their wind upgrade improvements.
6. Homeowner is approved for a grant and supplied with a list of Program approved contractors from whom to get bids for the construction work identified in their report and covered by the MSFH program bids.
7. Homeowner selects contractor and awards the MSFH Upgrade project.
8. Contractor completes work which is re-inspected and then approved for payment.
9. \$5,000 Low Income grant money go directly to the contractor for the completed and approved construction work. This is not a reimbursement grant.
10. \$10,000 grants payments go to the homeowners only after contractor is paid and home is re-inspected and approved. This is a re-imbusement grant. Homeowner must spend \$5,000 to get the full \$10,000 reimbursement.
11. Work must be permitted and meet Florida building codes.
