

A QUICK GUIDE TO

Understanding & Navigating the MySafeFLHome Program.

HOW TO “GET READIER”

The Florida Legislature allocated funds for homeowners to strengthen their homes against hurricanes and save money on insurance.

1. Apply for a FREE Inspection

Scan code below to get your FREE Home Wind Mitigation Inspection.

2. Receive a Inspection Report

Results identify current hurricane-resistant features and recommended improvements.

3. Apply and Qualify for Grant

Must be a Florida resident whose primary residence is a site-built, single-family home or townhouse.

4. Make Recommended Upgrades

Qualifying homeowners must select an approved MSFH contractor to perform the specified wind mitigation improvements recommended by the free inspection.

5. Request Final Home Inspection of Improvements

After home upgrades are complete, you must REQUEST through your portal one final inspection to verify that all upgrades were made.

6. Seek Eligibility for Lower Insurance Premiums

Contact your home insurance provider to receive eligible discounts.

7. Grant Reimbursement

Payment will be disbursed after a final home inspection is approved and paper work is completed.

IMPORTANT PROGRAM FACTS:

Only the improvements recommended in your initial inspection report will be authorized for reimbursement. No other improvements are authorized under the program.

The MSFH Program will not make any grant payments if you fail to use an approved contractor to perform approved work or otherwise do not follow program requirements.

To receive the insurance proof of premium discount documentation, you will need to send your Final Inspection Report to your insurance agent.
